

**2015
4Runner
Quick Reference Guide**

2015 4Runner

This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle's main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner's Manual* located in the vehicle's glove box. We strongly encourage you to review the *Owner's Manual* and supplementary manuals so you will have a better understanding of the vehicle's capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new 4Runner.

A word about safe vehicle operations

This *Quick Reference Guide* is not a full description of 4Runner operations. Every 4Runner owner should review the *Owner's Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner's Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

- Rear differential lock indicator
- TRAC OFF Traction Control OFF indicator¹
- ECO Eco Driving Indicator Light¹
- Automatic running boards indicator¹

¹ If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.

² For details, see "SRS airbags" Section 1-1, 2014 Owner's Manual.

³ If this light flashes, refer to "Four-wheel drive system," Section 4-5, 2014 Owner's Manual.

⁴ If this light flashes, refer to "Cruise control," Section 4-5, 2014 Owner's Manual.

Fuel tank door and cap

Pull **Store**

NOTE: Tighten until one click is heard. If the cap is not properly sealed, Check Engine “” indicator may illuminate.

Keyless entry

Locking

Without Smart Key system **With Smart Key system**

Push

Unlocking

Without Smart Key system **With Smart Key system**

Push ONCE: Driver door
TWICE: All doors

NOTE: If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

Panic button

Push and hold

Smart Key system (if equipped)

Start function

Green indicator ON
Push

NOTE: Carry the electronic key to enable start function. Gear shift lever must be in Park and brake pedal depressed.

Power (without starting engine)

Without depressing the brake pedal, pressing the “ENGINE START STOP” switch will change the operation mode in succession from:

ACCESSORY Accessories such as the radio will operate.

ON Power ON; the engine is not running.

OFF All systems OFF.

Locking operation	Unlocking operation
<p>Front door lock</p> <p>Touch Carry remote to lock</p>	<p>Front door unlock*</p> <p>Grasp Carry remote to unlock</p>

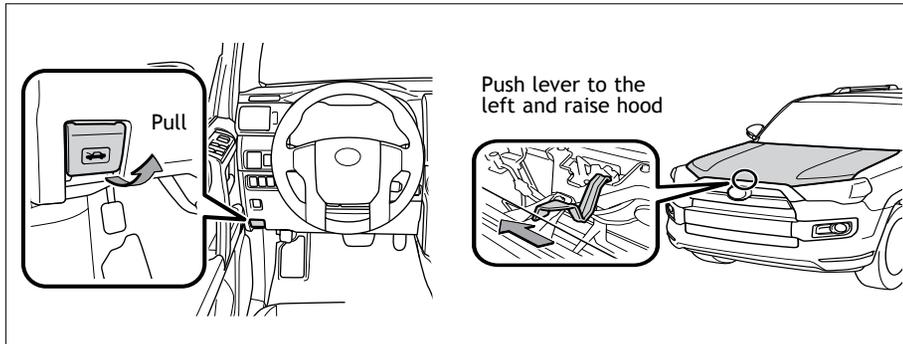

Back door lock/unlock/open

<p>Unlock</p> <p>Push Carry remote to lock/unlock/open</p>	<p>Lock</p> <p>Push </p>	<p>Open</p> <p>Push </p>
---	--	--

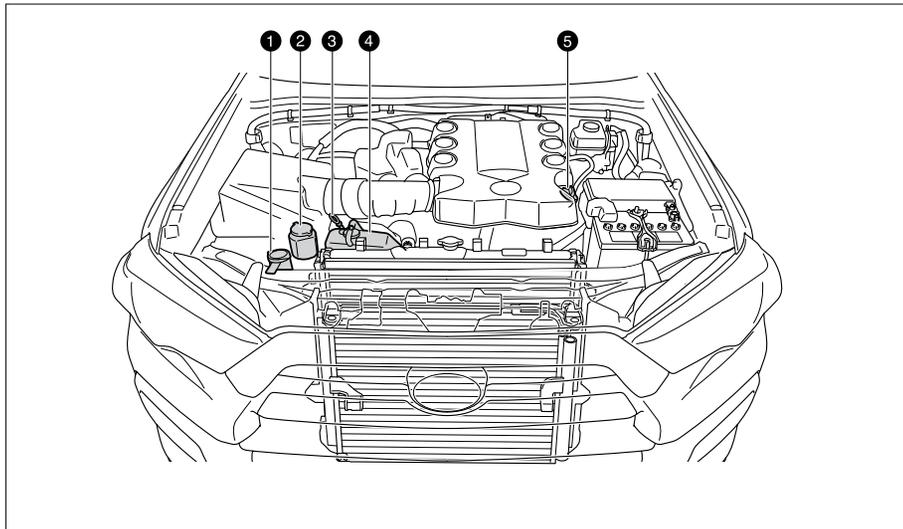

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping front passenger door handle will unlock all doors.

NOTE: Doors may also be locked/unlocked using remote.

Hood release

Engine maintenance

- ① Windshield and back window washer fluid tank
- ② Power steering fluid reservoir
- ③ Engine oil level dipstick
- ④ Engine coolant reservoir
- ⑤ Engine oil filler cap

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”

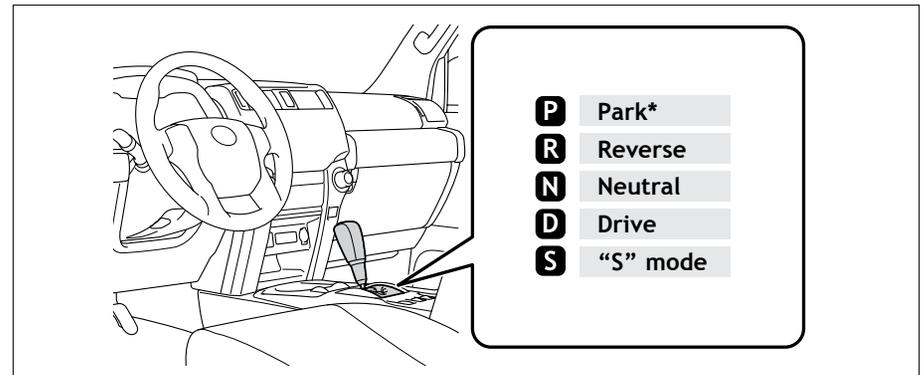

Auto lock/unlock

Automatic door locks can be programmed to operate in four different modes, or turned OFF.

- Doors lock when shifting from Park.
- Doors lock when the vehicle speed is approximately 12 mph or higher.
- Doors unlock when shifting into Park.
- Doors unlock when the driver’s door is opened within 10 seconds after turning the “ENGINE START STOP” switch or ignition switch OFF.

Refer to the *Owner’s Manual* for more details.

Automatic Transmission

* The ignition/“ENGINE START STOP” switch must be “ON” and the brake pedal depressed to shift from Park.

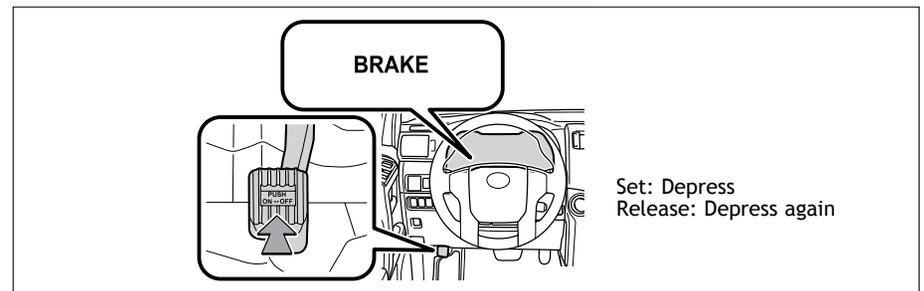

“S” (Sequential) mode

Shift the shift lever to “S” position from “D” position.

- + : Upshift (push and release)
- : Downshift (pull and release)

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

Parking brake

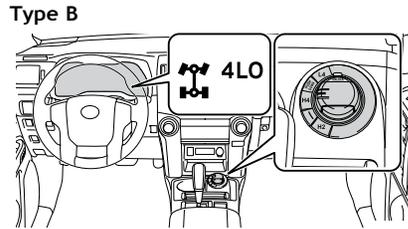

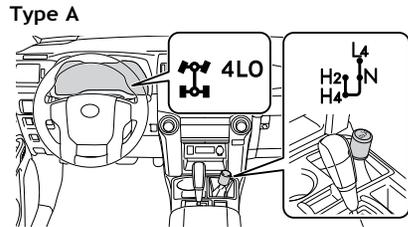

Four-wheel drive (if equipped)

Part-time four-wheel drive models

Push "UNLOCK" button and then push and turn the selector.

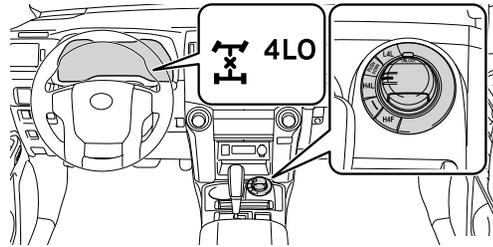

- H2** High speed (2WD)
- H4** High speed (4WD)
Shift to "H4" with speed below 50 mph.
- N** Neutral
- L4** Low speed (4WD)
Stop vehicle, shift to "N" position, then move the lever to "L4."

Full-time four-wheel drive models

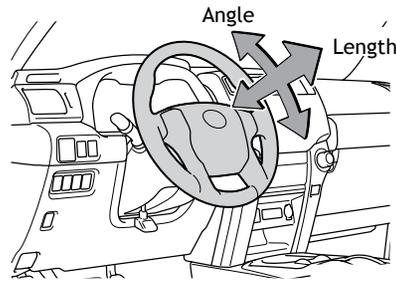

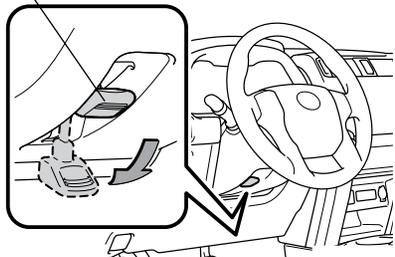

Push "UNLOCK" button and then push and turn the selector.

- H4F** High speed
- H4L** High speed (center differential locked)
- L4L** Low speed (center differential locked)
Stop vehicle, shift to "N" position, then push and turn to "L4L."

Tilt and telescopic steering wheel

Lock release lever

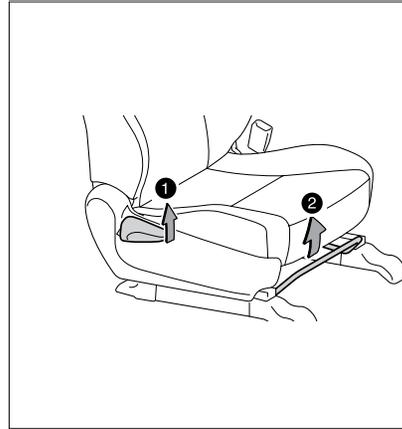

Hold wheel, push lever down, set angle and length, and return lever.

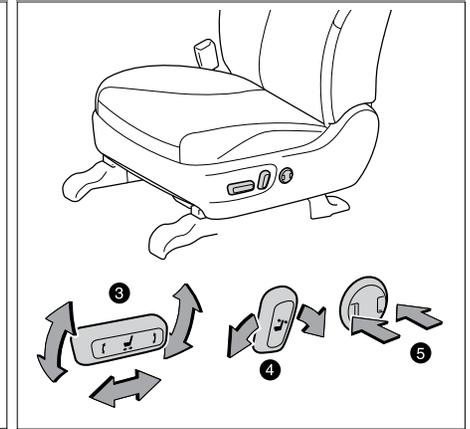

NOTE: Do not attempt to adjust while the vehicle is in motion.

Seat adjustments-Front

Manual seat

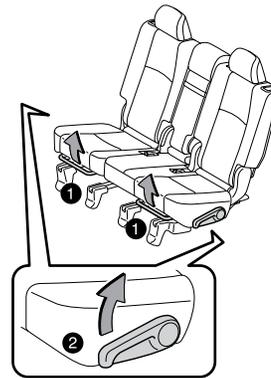

Power seat

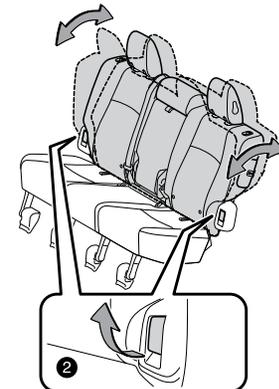

- 1 Seatback angle
- 2 Seat position (forward/backward)
- 3 Driver seat: seat position, cushion angle and height
Passenger seat: seat position (forward/backward)
- 4 Seatback angle
- 5 Lumbar support (driver side only)

Seat adjustments-Second row seats

Vehicles with third row seats

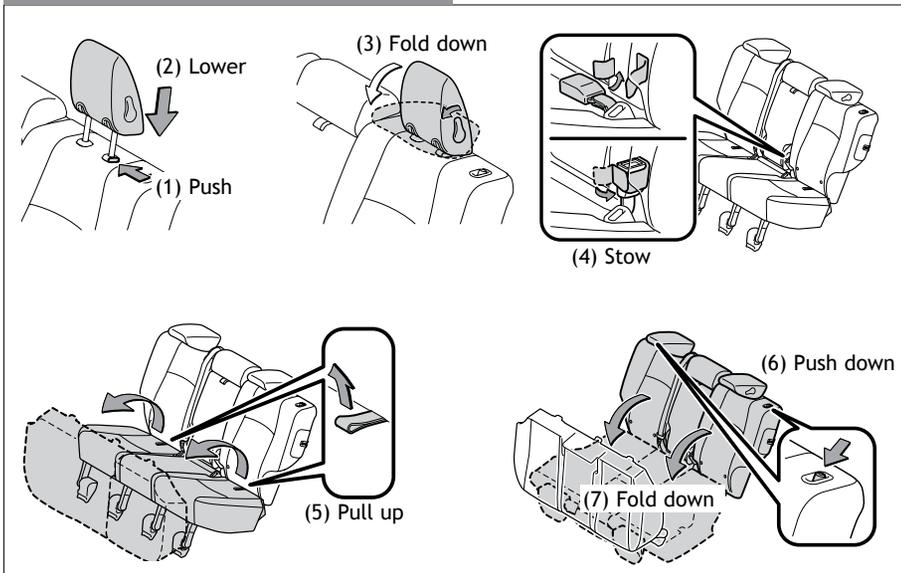

Vehicles without third row seats

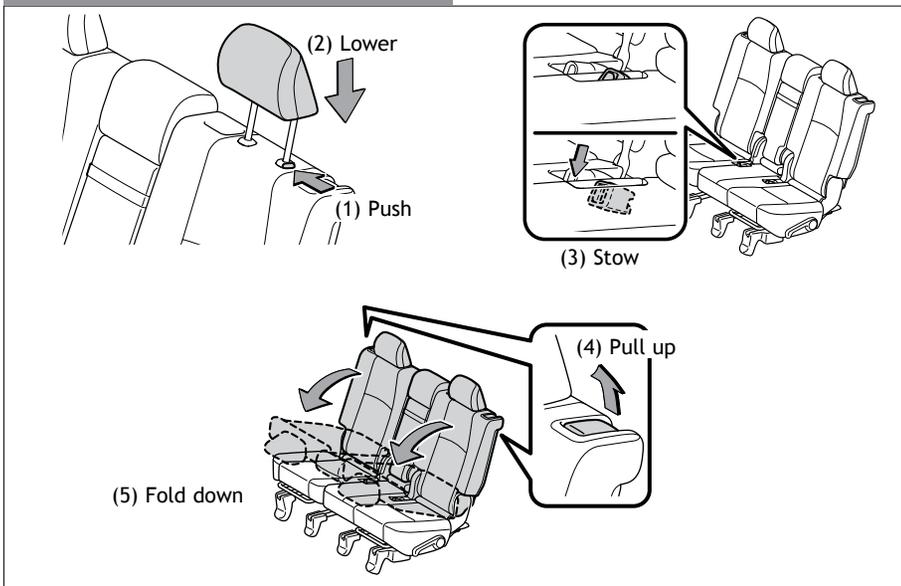

- 1 Seat position (forward/backward)
- 2 Seatback angle

Seats-Folding down second row seats

Without third row seats

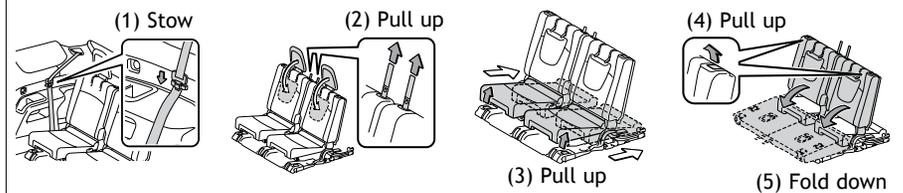

With third row seats

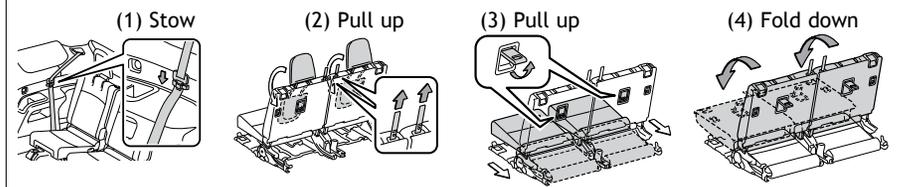

Seats-Stowing third row seats (if equipped)

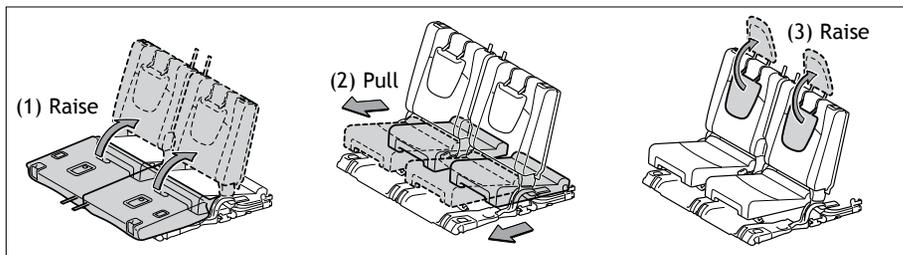

From inside

From outside

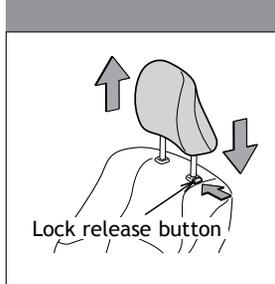

Seats-Returning third row seats (if equipped)

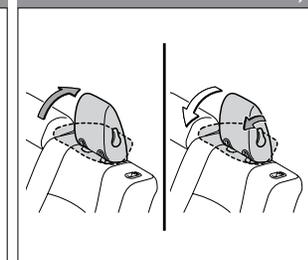

Seats-Head restraints

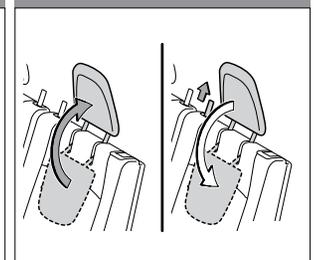

Front and second row

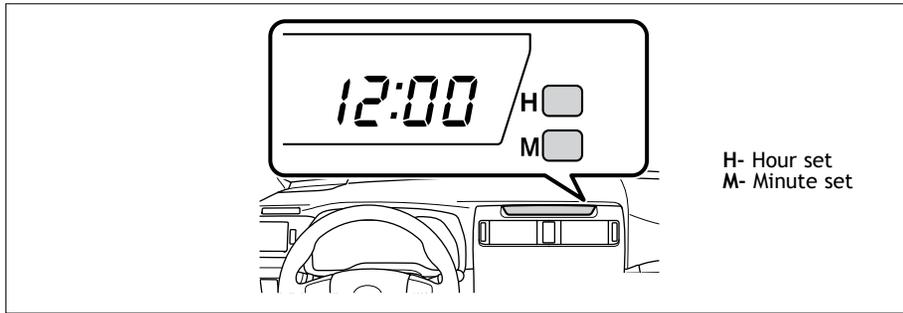

Second row (vehicles without third row seats)

Third row (if equipped)

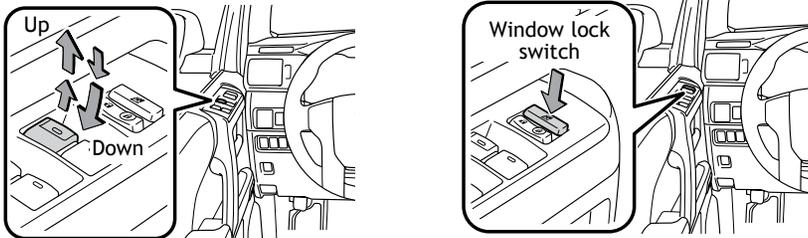

Clock

Windows

Driver side

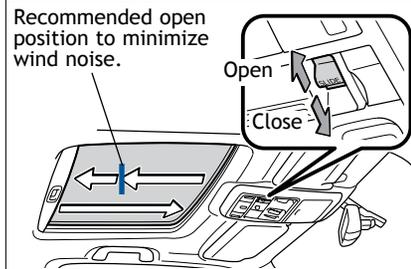

Automatic operation Push the switch completely down or pull it completely up and release to fully open or close. To stop the window partway, operate the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver's window remains operable.

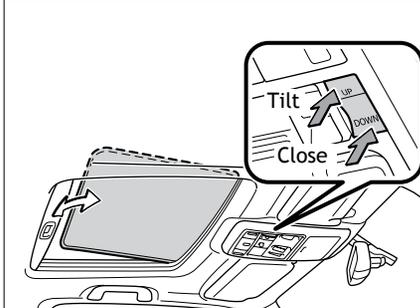

Moonroof (if equipped)

Sliding operation

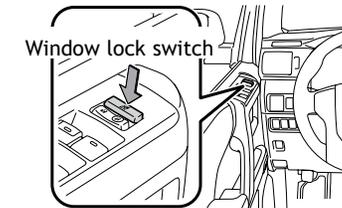

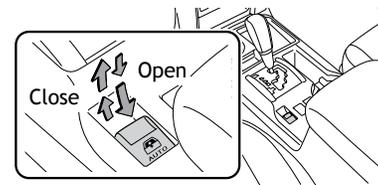

Push once to open partway; again to open completely. Push once to close completely. To stop partway, press switch lightly.

Tilting operation

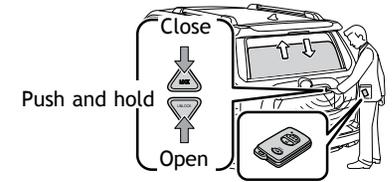

Window-Back window

Operating from inside

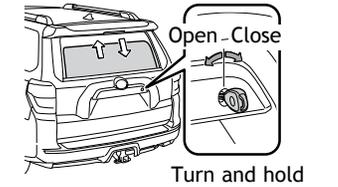

Operating from outside

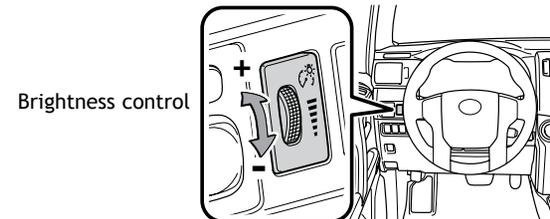

With Smart Key system

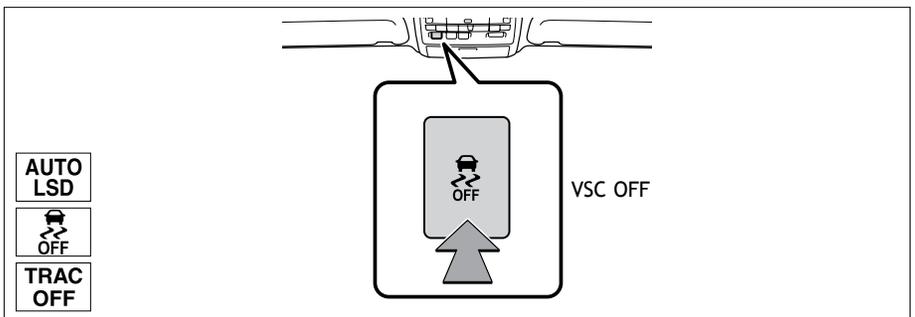

Without Smart Key system

Light control-Instrument panel

VSC OFF button

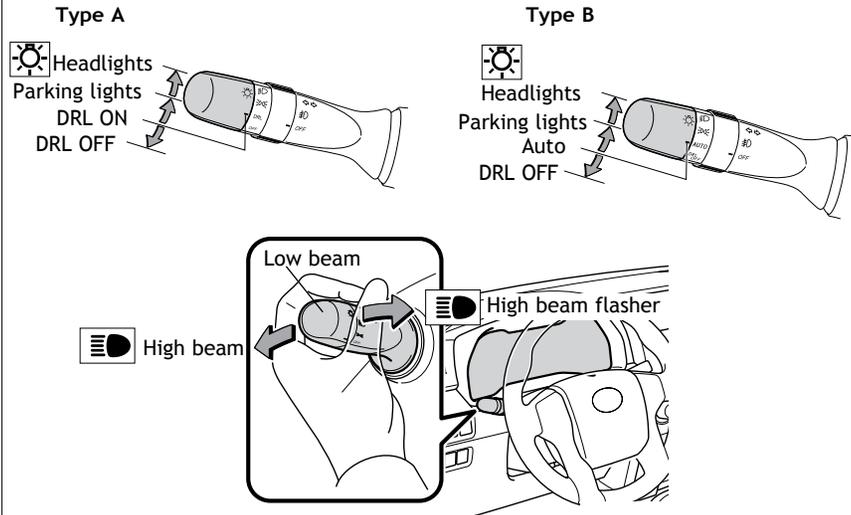

The VSC OFF button is used to switch between modes related to the TRAC, VSC and Auto LSD (2WD) functions.

Refer to Section 4-5 of the *Owner's Manual* for more information.

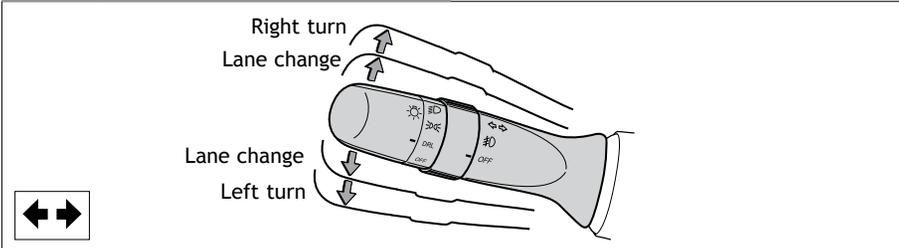

Lights & turn signals

Headlights

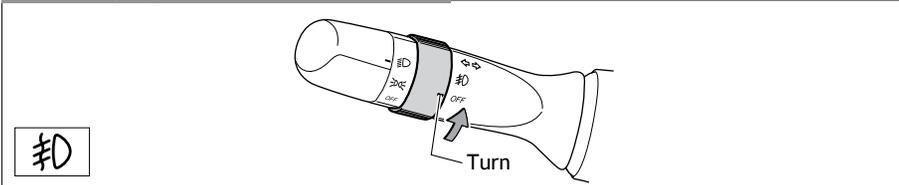

Automatic light cut off system Will automatically turn lights off after a delay of 30 seconds, or the lock switch on remote may be pushed after locking.

Turn signals

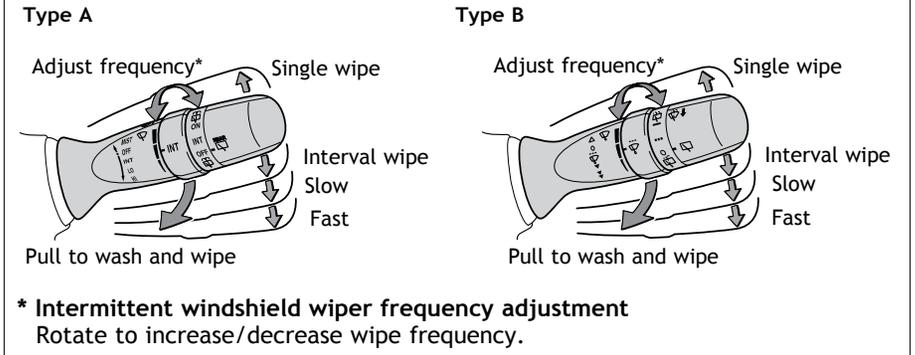

Front fog lights

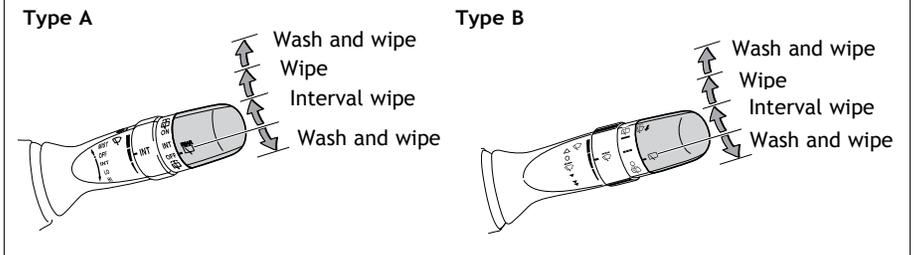

Front fog lights come on only when the headlights are on low beam.

Windshield wipers & washers

Front

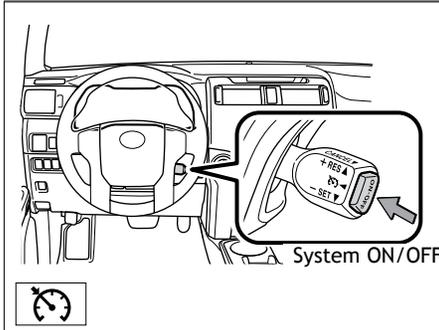

Rear

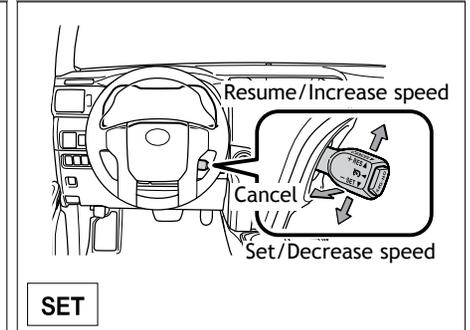

NOTE: Rear wiper and washer operate only when back window is fully closed.

Cruise control

Turning system ON/OFF

Functions

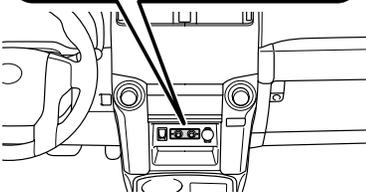

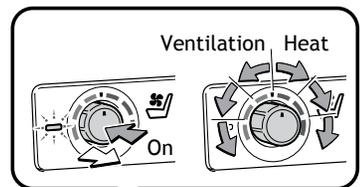

Refer to the *Owner's Manual* for more details.

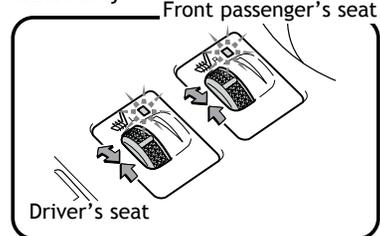

Seat ventilators/heaters (if equipped)

Front seats

With ventilators

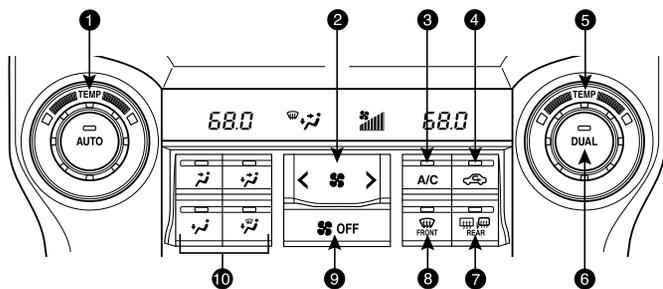

Heater only

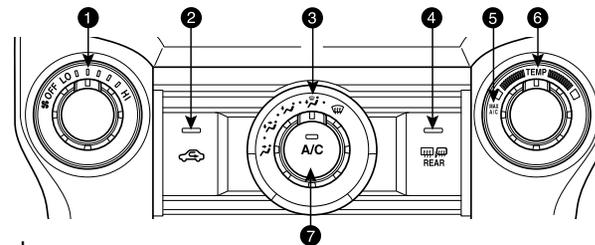

Air Conditioning/Heating

Automatic Air Conditioning

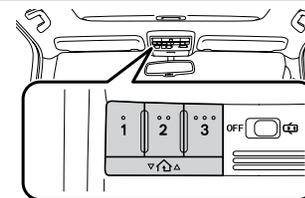

- 1 Temperature selector (driver side)
- 2 Fan speed
- 3 Air Conditioning ON/OFF
- 4 Recirculate cabin air (fresh air when OFF)
- 5 Temperature selector (front passenger side)
- 6 "DUAL" button
 Indicator ON: Separate temperature settings for driver and passenger.
 Indicator OFF: Synchronize temperature settings for driver and passenger.
- 7 Rear window and outside rearview mirror defoggers
- 8 Airflow vent
 In " " mode, use fresh air (" " indicator OFF) to reduce window fogging.
 " " mode uses fresh air only.
- 9 Climate control OFF
- 10 Automatic climate control ON
 Adjust the temperature setting, and airflow vents and fan will adjust automatically.

Manual Air Conditioning

- 1 Fan speed
- 2 Recirculate cabin air (fresh air when OFF)
- 3 Airflow vent
 In " " mode, use fresh air (" " indicator OFF) to reduce window fogging.
 " " mode uses fresh air only.
- 4 Rear window and outside rearview mirror defoggers
- 5 For maximum cooling. Air intake will automatically be set to recirculate.
- 6 Temperature selector
- 7 Air Conditioning ON/OFF

Garage door opener (HomeLink®)* (if equipped)

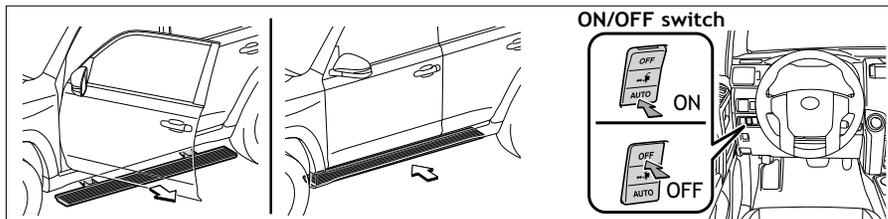

Garage door openers manufactured under license from HomeLink®* can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to the *Owner's Manual* for more details.

For programming assistance, contact HomeLink® at 1-800-355-3515, or visit <http://www.homelink.com>.

* HomeLink® is a registered trademark of Johnson Controls, Inc.

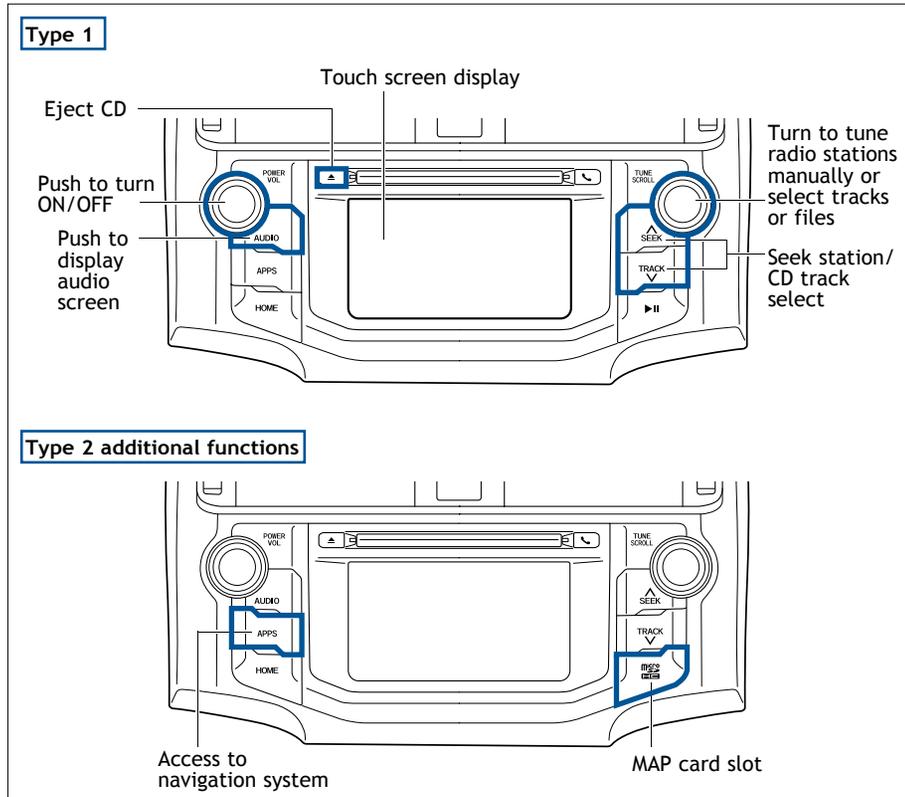

Automatic running boards (if equipped)

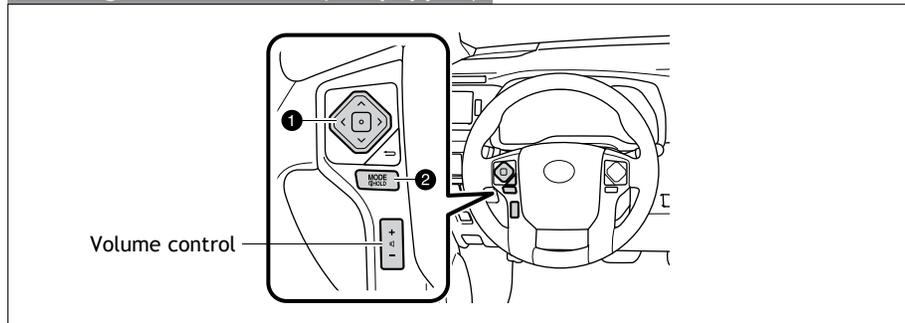

The automatic running boards are linked to side door operation. When a side door is opened or closed, the board on the same side extends or retracts.

Audio (if equipped)

Refer to the “Navigation System Owner’s Manual” for instructions and more information.

Steering wheel controls (if equipped)

- ① “▲ ▼”
Use to search within the selected audio medium (radio, CD, iPod®, etc.).
- ② “MODE”
Push to turn audio ON and select an audio mode. Push and hold to turn audio system OFF.

Entune™ Audio Plus

- ① **AUDIO Button**
Access to audio functions.
- ② **APPS Button**
Access to features such as fuel consumption, traffic, and weather.
- ③ **HOME Button**
Access to Home screen.

HOME SCREEN - the home screen offers a two panel and a three panel layout. Information and layout will vary depending on selected set up.

NOTE: Console configuration and position of buttons may vary in some vehicles.

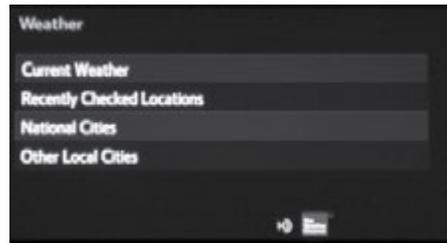

Quick Tip - The USB and AUX port location and design are different depending on the vehicle. For details, see page 23.

Traffic (Entune™ Audio Plus)

The Traffic App displays a scrollable map showing local traffic in 3 colors. Traffic conditions are displayed in red, yellow and green for heavy, moderate or light traffic conditions. Use or arrows to scroll the map up or down.

Weather (Entune™ Audio Plus)

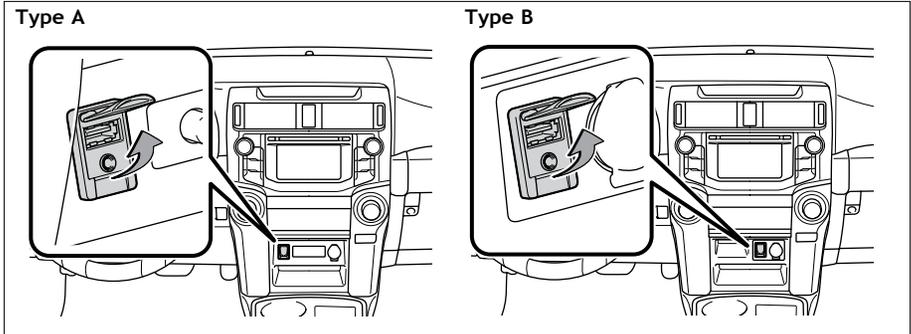

The Weather App options show current weather and recently checked locations weather. You can also search for a weather forecast by national or local cities.

NOTE: Entune™ Audioplus is available on SR5/Trail model only. For SR5 Premium/Trail Premium and Limited, please refer to the Entune™ Premium Audio with Navigation and App Suite Quick Reference Guide or Toyota Owner’s Manual.

Always drive safely, obey traffic laws & focus on the road while driving. Availability and accuracy of the information provided by HD services is dependent upon many factors. Services not available in every city or roadway. Use common sense when relying on information provided. HD Radio(tm) Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio(tm) and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp.

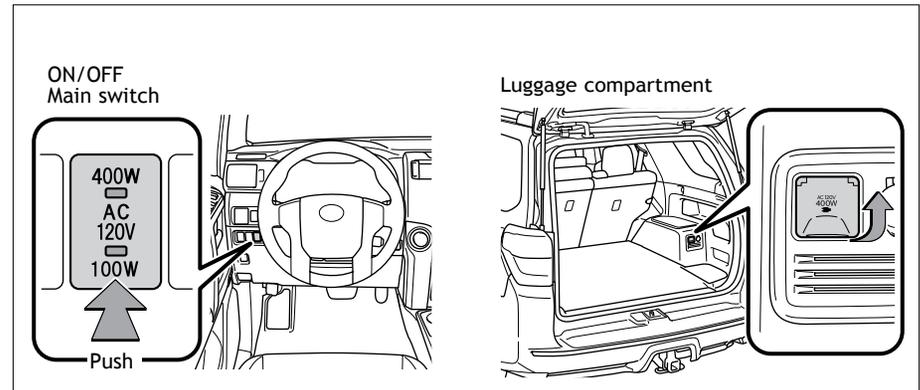

USB/AUX port

By inserting a mini plug into the USB/AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in USB/AUX mode.

Refer to the “Navigation System Owner’s Manual” for instructions and more information.

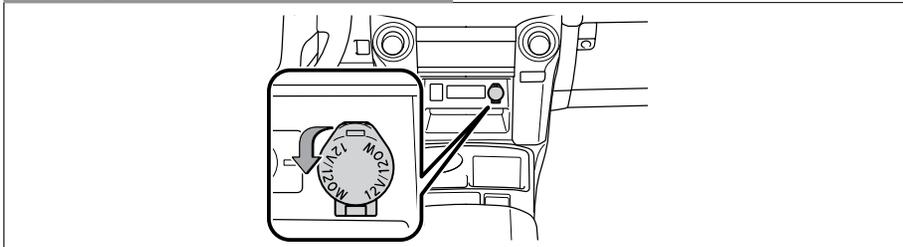

Power outlets-120V AC (if equipped)

NOTE: The 120V AC power outlet can only be used when engine is running.

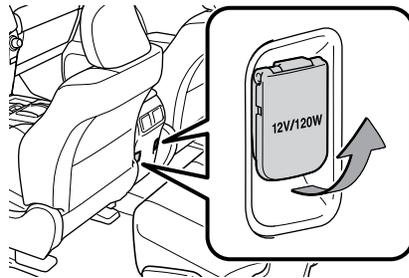

Power outlets-12V DC

Center panel

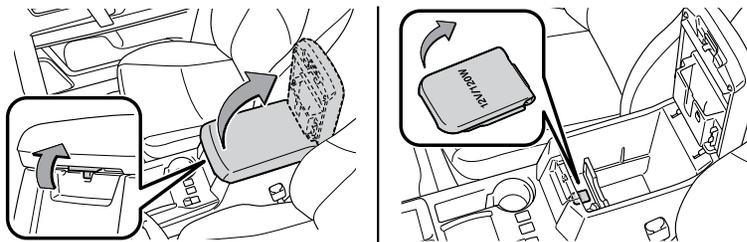

Console box

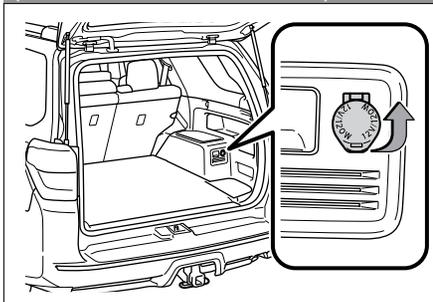

Outside

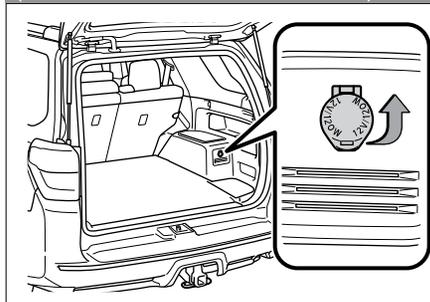

Inside

Luggage compartment (with the 120V AC outlet)

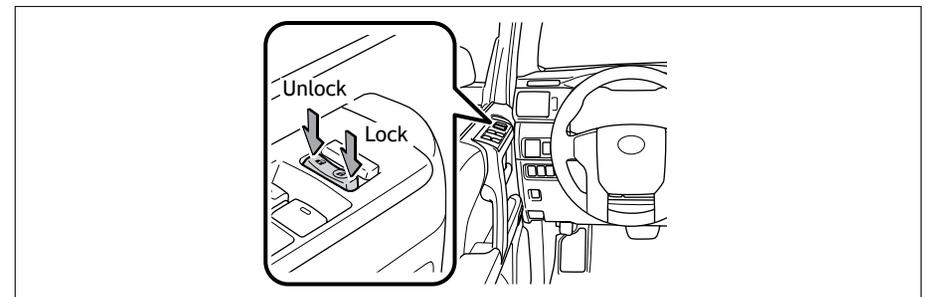

Luggage compartment (without the 120V AC outlet)

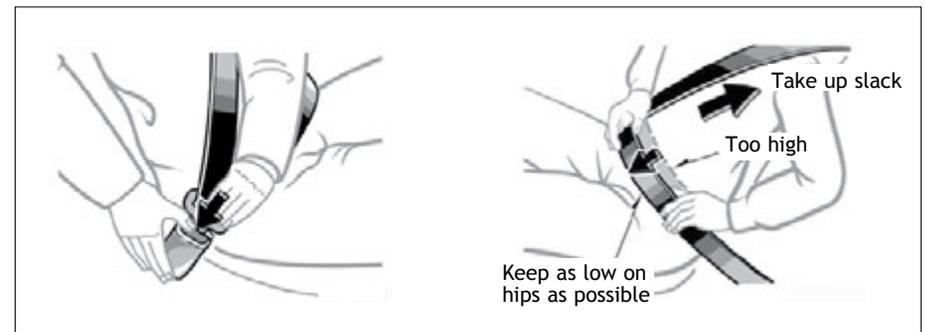

NOTE: Designed for car accessories. Ignition switch/“ENGINE START STOP” switch must be in the “ACC” or “ON” position to be used.

Door locks

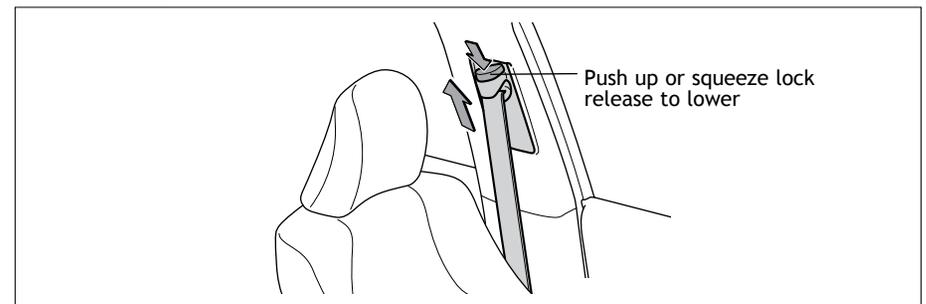

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the *Owner's Manual*.

Seat belts-Shoulder belt anchor

Tire Pressure Monitoring (warning) System

If tire pressure becomes critically low on any of the tires, “(!)” indicator light will come on. Correctly adjusting tire inflation will turn off the light after a few minutes. If the light does not turn off, have the system checked by your Toyota dealer.

Refer to the *Owner's Manual* for more details.

Doors-Child safety locks

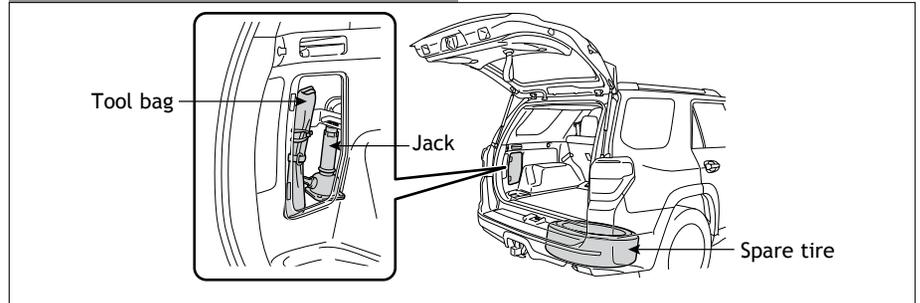

Rear door

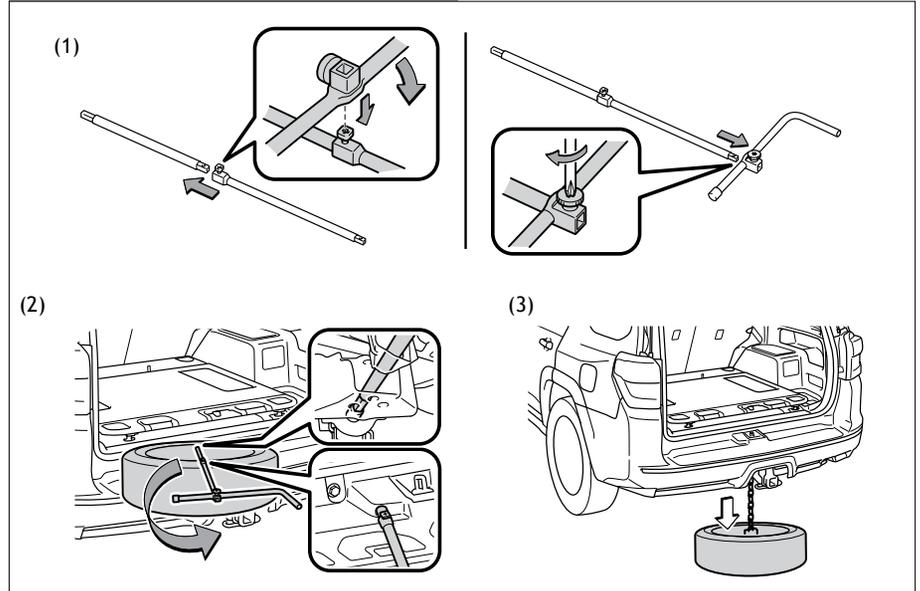

Moving the lever downward will allow the door to be opened only from the outside.

Spare tire & tools

Tool location

Removing the spare tire

- (1) Assemble the jack handle.
- (2) Insert the jack handle end through the opening in the bumper, and into the lowering screw.
- (3) Turn the jack handle counterclockwise.

Refer to the *Owner's Manual* for tire changing and jack positioning procedures.

Star Safety System™

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

Vehicle Stability Control (VSC)

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota's VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

Traction Control (TRAC)

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota's TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

Anti-Lock Brake System (ABS)

ABS helps prevent brakes from locking up by "pulsing" brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota's ABS sensors detect which wheels are locking up and limits wheel lockup by "pulsing" each wheel's brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

Electronic Brake Force Distribution (EBD)

Toyota's ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

Brake Assist (BA)

Brake Assist is designed to detect sudden or "panic" braking, and then add braking pressure to help decrease the vehicle's stopping distance. When there's only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.

Smart Stop Technology (SST)

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

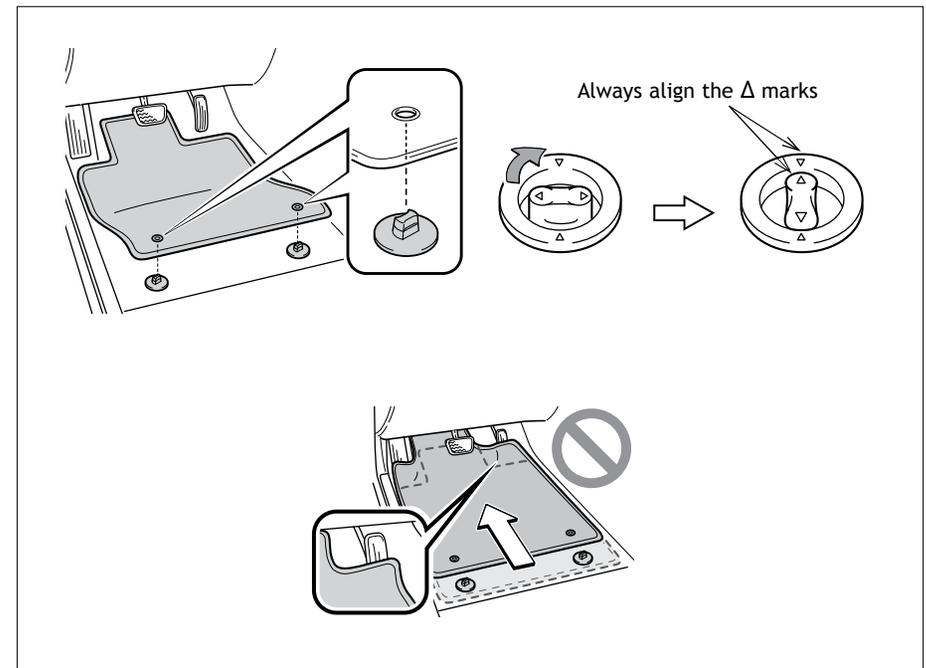

SST doesn't engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

Floor mat installation

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

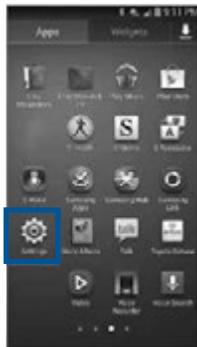

BLUETOOTH® DEVICE PAIRING SECTION

To begin the Bluetooth Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune Multimedia Head Unit.¹

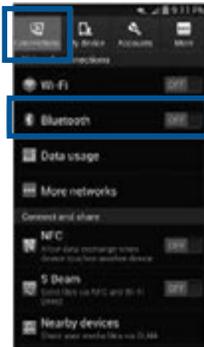

Bluetooth Pairing for Android phone and Entune touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

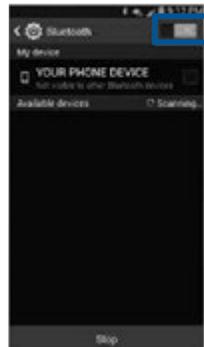

Initiate Bluetooth on your Android

STEP 1
From your APPS SCREEN, select SETTINGS

STEP 2
Select CONNECTIONS and select BLUETOOTH

STEP 3
Ensure BLUETOOTH is ON

STEP 4
Select YOUR PHONE DEVICE to make it discoverable.

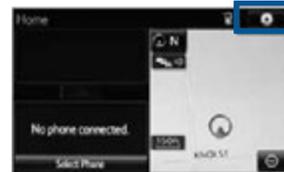

Phone will seek out Bluetooth devices while remaining discoverable.

STEP 5
While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

Initiate Bluetooth on your Entune Multimedia Head Unit

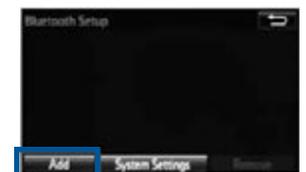

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

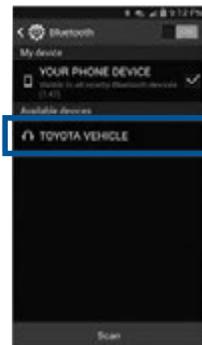

STEP 6
On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

STEP 7
Select BLUETOOTH

STEP 8
Select ADD, to add your phone device

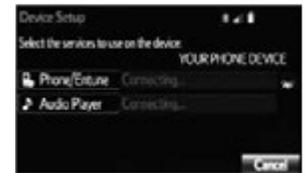

STEP 9
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

You may need to enter the provided Bluetooth PIN on your phone.

STEP 10
Your smartphone is now paired with Entune.

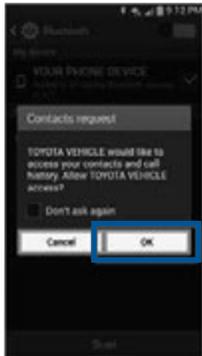

STEP 11
Once paired, Entune will attempt to connect audio and contacts on your phone.

¹ To determine which head unit is installed in your vehicle, refer to page 20.

² Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.

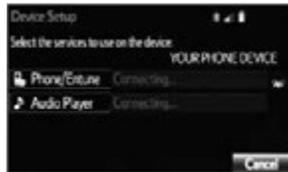

Initiate Bluetooth on your Entune Multimedia Head Unit (continued)

STEP 12

Using your smartphone, you will need to allow Entune access to your messaging and contacts

It is recommended to check the "Don't ask again" box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota

STEP 13

A confirmation will appear once your phone has been paired and connected.
