Hybrid System

Your vehicle is a hybrid vehicle. It has characteristics different from conventional vehicles. Be sure you are closely familiar with the characteristics of your vehicles, and operate with care. The hybrid system combines a gasoline engine and an electric motor (traction motor) according to driving conditions, improving fuel efficiency and reducing exhaust emissions. For details, refer to the "Owner's Manual".

■ Hybrid System Indicator
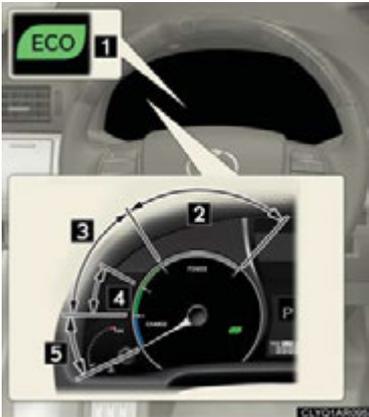

1 Eco Driving Indicator Light
During Eco-friendly acceleration (Eco driving), Eco Driving Indicator Light will turn on.
Eco Driving Indicator Light will not operate in the following conditions:
- The shift lever is in anything other than D.
- The driving mode is set to snow mode or EV drive mode.
- The vehicle speed is approximately 80 mph (130 km/h) or higher.

2 Power area
Shows that an Eco-friendly driving range is being exceeded (during full power driving etc.)

3 Eco area
Shows that the vehicle is being driven in an Eco-friendly manner.

4 Hybrid Eco area
Shows that gasoline engine power is not being used very often.

The gasoline engine will automatically stop and restart under various conditions.

5 Charge area
Shows that energy is being recovered via regenerative braking.

■Regenerative braking

The motor generator converts kinetic energy to electric energy when:
● The accelerator pedal is released.
● The brake pedal is depressed with the shift lever in D or S.

■Sounds and vibrations specific to a hybrid vehicle

There may be no engine sounds or vibrations even though the vehicle is able to move. Always put the shift lever in P when parked.

The following sounds or vibrations may occur when the hybrid system is operating, and are not a malfunction:
● Motor sounds may be heard from the engine compartment.
● Sounds may be heard from the hybrid battery (traction battery) under the rear seat when the hybrid system starts or stops.
● Sounds from the hybrid system may be heard when the back door is open.
● Sounds may be heard from the hybrid transmission when the engine is started or stopped, or while the engine is idling.
● Engine sounds may be heard when accelerating sharply.
● Sounds may be heard due to regenerative braking when the brake pedal is depressed and accelerator is loosened.
● Vibrations may be felt when the gasoline engine starts or stops.
● Cooling fan sounds may be heard from the air intake vents under the rear seat.

Energy Monitor / Consumption Screens

You can view the status of your hybrid system on the multi-information display and the Navigation system screen.

■Energy monitor

The energy monitor can be displayed on both the Navigation system screen and the multi-information display.

● How to display on the Navigation system screen (→P.32):

Press the "MENU" button on the Remote Touch, and select after that select .

If the Consumption or Past Record screen is displayed, select the Energy and push the "ENTER" button.

● How to display on the multi-information display:
Toggle the "ENTER" switch on the steering wheel upward or downward through several items to select the energy monitor display.
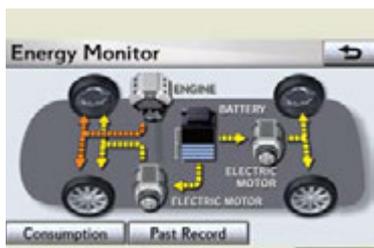

● The flow of energy is displayed on the Navigation system screen. (The rear electric motor is equipped AWD models only.)
   Amber: gasoline energy
   Yellow: electrical energy
   Green: energy recovery
      A green arrow appears when regenerative braking occurs.
● The flow of energy is indicated by the movement of the arrows on the multi-information display.
● The battery display acts as an 9-step indicator of the hybrid battery level.

The displayed energy flow, battery level, etc. will change in response to the current driving conditions.

■ Consumption (with navigation system)

Press the "MENU" button on the Remote Touch and select , after that select

and push the "ENTER" button.

If the Consumption screen does not appear, select the Consumption and push the "ENTER" button.
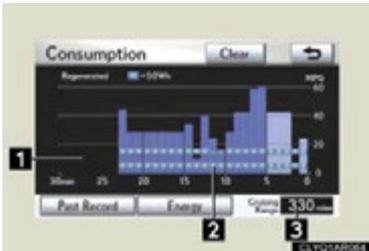

1 Fuel consumption in the past 30 minutes

2 Regenerated energy in the past 30 minutes
One symbol indicates 50 Wh. Up to 4 symbols are shown.

3 Cruising range

■ Past record (with navigation system)

Press the "MENU" button on the Remote Touch and select , after that select

and push the "ENTER" button.

If the Past Record screen does not appear, select the Past Record and push the "ENTER" button.
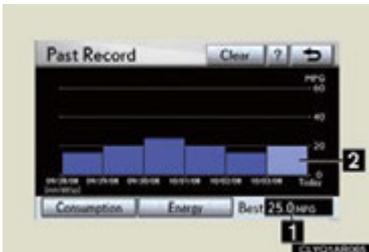

1 Best past fuel consumption

2 Average fuel consumption

■Hybrid warning message

A message is automatically shown when a malfunction occurs in the hybrid system or an improper operation is attempted.

If a warning message is shown on the multi-information display, read the message and follow the instructions.

Keys

■ Electronic key

Smart access system with push-button start (→P.13, 15)

*: If equipped

Card key*

■ Mechanical key

● Locks and unlocks the doors
● Locks and unlocks the glove box

The mechanical key is stored inside the electronic key. To extract the key, release the latch and pull, or if equipped with a card key, press the button and pull.

■ Wireless remote control

1 **Press:** locks all doors
2 **Press once:** unlocks the driver's door
Press twice: unlocks all doors
3 **Press and hold:** opens and closes the back door*
4 **Press and hold:** sounds the alarm
(Use the alarm to attract attention to the vehicle in order to help deter break-ins. To stop the alarm, press any button on the wireless remote control.)

*: If equipped

Smart Access System with Push-button Start

The smart access system with push-button start allows you to enter and exit the vehicle or start the hybrid system by simply carrying the electronic key in your pocket or bag.
For details on starting the hybrid system, see page 15.

■Entering the vehicle

To unlock the vehicle, simply grasp either of the front door handles.

■Exiting the vehicle
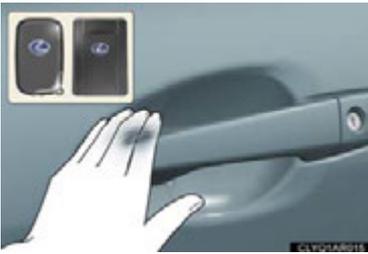

To lock the vehicle, touch the lock sensor on either of the front door handles.

■Locking and unlocking the back door

1 Locks
2 Unlocks

For details on what to do when the electronic key does not operate properly, see page 87.

Theft Deterrent System

The theft deterrent system includes the following features to help protect your vehicle from theft.

■ Immobilizer system

The immobilizer system prevents the hybrid system from being started in the event that an attempt is made to start the vehicle using an unregistered key.

The security indicator light flashes to indicate that the system is set.

■ Alarm

The system sounds the alarm and flashes lights when an attempt to steal the vehicle is detected.

To set the alarm: close the doors and hood, and lock all doors. The security indicator light comes on to indicate that the alarm is in its preparation state. When the indicator light begins to flash, the system is armed.

To deactivate or stop the alarm: start the hybrid system, or unlock the doors.

■ Steering lock

The steering wheel locks when the "POWER" switch is turned off and the driver's door is opened.

When the steering lock cannot be released, the green indicator light on the "POWER" switch will flash and a message will be shown on the multi-information display. To release it, press the "POWER" switch while gently turning the steering wheel left or right.

▨ Power (Ignition) Switch

With the electronic key on your person, the hybrid system can be started by simply press-
ing the "POWER" switch, while depressing the brake pedal.
(The mechanical key cannot be used to start the hybrid system.)

■ Starting the hybrid system

Make sure the parking brake is set and the shift
lever is in P.

1 Depress the brake pedal.

The "POWER" switch indicator light turns
green.

2 Press the "POWER" switch.

When the "READY" indicator changes
from flashing to on, the hybrid system is
properly started.

■ Stopping the hybrid system

1 Set the parking brake and shift the shift lever to P.
2 Press the "POWER" switch.

If the shift lever is in a position other than P when turning off the hybrid system, the "POWER"
switch will be turned to ACCESSORY mode, not to off. To avoid unexpected 12-volt battery
discharge, make sure the lever is in the P position when stopping the hybrid system.

■ Changing "POWER" switch mode

To change the "POWER" switch mode without turning on the hybrid system, press the
"POWER" switch without depressing the brake pedal. The mode can be changed in the fol-
lowing order:
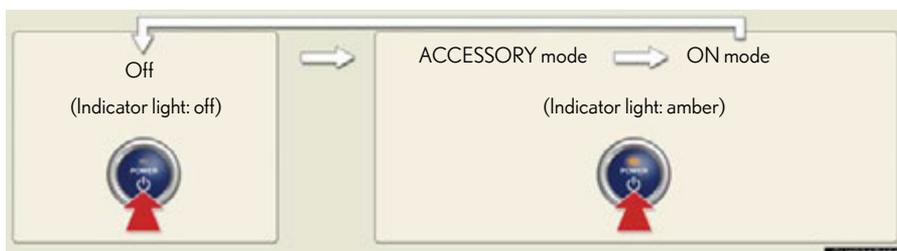

▰ Intuitive Parking Assist (If Equipped)

The system uses a screen display and buzzer to inform the driver of obstacles near the vehicle when parking or driving at low speed.

Owners of models equipped with a navigation system should refer to the "Navigation System Owner's Manual".

■ Turning the system on and off

[1] Press the menu switch

[2] Press the "ENTER" switch upwards or downwards until the Intuitive parking assist mark appears in the multi-information display.

[3] Press the "ENTER" switch to select on/off.

Press the menu switch to change to the normal display.

■ Screen display
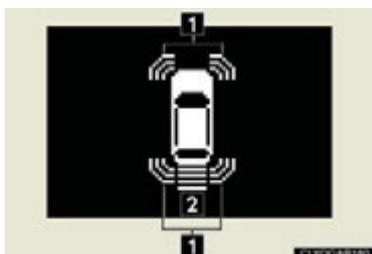

Sensors are used to detect obstacles near the vehicle. The distance to a detected obstacle is shown by the number of indicator bars.

1 Indicates obstacles detected by the corner sensors

2 Indicates obstacles detected by the back sensors

Multi-information Display and Switch

The multi-information display shows information about your vehicle, including the items shown below.

■ Multi-information switches

1 Menu switch

Changes modes to electronic features control mode, customization mode or back to normal display mode.

2 "ENTER" switch

Changes trip information items. This switch is also used to turn on/off electronic features controls and to change customization settings.

■ Display contents

Trip information contents	Switching display items
1 Energy monitor	
2 Current fuel consumption	
3 Average fuel consumption after refueling	
4 Average fuel consumption	Press the "ENTER" switch upwards or downwards.
5 Average vehicle speed	
6 Cruising range	
7 Tire inflation pressure	
8 - (off)	

Electronic features control contents	Setting electronic features controls
1 Intuitive parking assist*	→P. 16
2 Eco drive mode	For details, see the Owner's Manual.
3 Snow mode	For details, see the Owner's Manual.
4 AFS*	For details, see the Owner's Manual.
5 EV drive mode	For details, see the Owner's Manual.

Display order may vary depending on vehicle condition.

Customization	
Dynamic radar cruise control settings*	
Warning message	

*: If equipped

■ When using intuitive parking assist or dynamic radar cruise control the appropriate display is shown on the screen.
■ In the event that a problem is detected in any of the vehicle's systems, a warning message is shown on the multi-information display.

Turn Signal Lever

▶ Type A

1 Right turn signal
2 Left turn signal
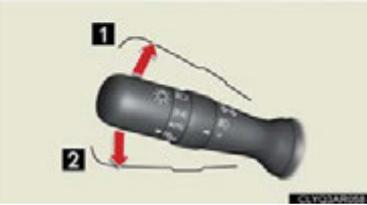

▶ Type B

1 Right turn signal
2 Left turn signal
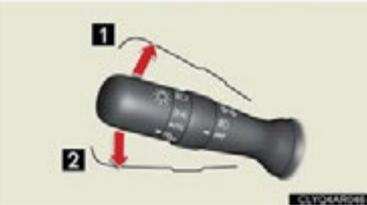

To signal a lane change, move the lever partway and hold.

Cruise Control (If Equipped)

Cruise control allows the driver to maintain a constant speed without having to operate the accelerator pedal.
Use for highway driving or when traveling at a constant speed for long periods of time.

1 Indicator
2 Display
3 Cruise control switch

■Setting the speed

1 Press the "ON-OFF" button.
   The system will turn on.

2 Accelerate or decelerate to the desired speed, and then push the lever down.
   This sets the speed in the cruise control memory.

■Canceling

1 To temporarily cancel the cruise control, pull the lever toward you. To resume the cruise control, push the lever up.

2 To turn the system off, press the "ON-OFF" button.

■Adjusting the speed setting

To increase speed: push the lever up.
To decrease speed: push the lever down.

Release the lever when the desired speed is reached.

Dynamic Radar Cruise Control (If Equipped)

Dynamic radar cruise control supplements conventional cruise control with a vehicle-to-vehicle distance control mode.

1 Indicator (vehicle-to-vehicle distance control mode)
2 Indicator (constant vehicle speed control mode)
3 Display
4 Distance switch
5 Cruise control switch

■ Cruise control display

Cruise control settings are shown on the multi-information display.
1 Vehicle ahead indicator
2 Vehicle-to-vehicle distance
3 Preset speed

■ Vehicle-to-vehicle distance control mode

1 Press the "ON-OFF" button.
2 Accelerate or decelerate to the desired speed, and then push the lever down.
Vehicle-to-vehicle distance can be adjusted using the distance switch.

■ Constant speed control mode
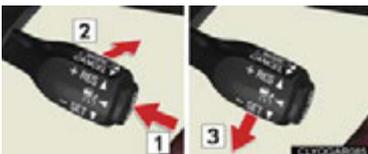

1 Press the "ON-OFF" button.
2 Push the lever forward and hold for at least one second.
3 Accelerate or decelerate to the desired speed, and then push the lever down.

■Canceling

1 To temporarily cancel the dynamic radar cruise control, pull the lever toward you. To resume the cruise control, push the lever up.

2 To turn the system off, press the "ON-OFF" button.

■Adjusting the speed setting

To increase speed: push the lever up.
To decrease speed: push the lever down.

Release the lever when the desired speed is reached.

The vehicle-to-vehicle distance control mode maintains the preset cruising speed as long as no vehicle is detected ahead.

▨ Head-up Display (If Equipped)

The head-up display can be used to project vehicle speed and other information onto the windshield.

■ Head-up display switches

1 Pressing the switch turns the head-up display on/off and changes the vehicle speed display units.

2 Adjusting display contrast

3 Adjusting display position

■ Head-up display contents

1 Audio display

2 Turn-by-turn navigation*

3 Vehicle speed display

4 Dynamic radar cruise control (if equipped)

- When using audio system or navigation system the appropriate display is shown on the screen.
- Warning messages will be displayed when necessary.
- Pressing and holding the head-up display main switch for more than 2 seconds changes the display to audio display on/off mode. Press the head-up display main switch to turn the audio display on/off.
- The head-up display may seem dark and hard to see when viewed through sunglasses, especially polarized sunglasses.
  Adjust the brightness of the head-up display or remove your sunglasses.

*: Refer to "Navigation System Owner's Manual".

Headlights

▶ **Type A**

1 AUTO The headlights, side marker, parking, tail, license plate, daytime running lights and instrument panel lights turn on/off automatically in accordance with ambient light levels.

2 ⫶D ⫶C The instrument panel, side marker, parking, tail, license plate and daytime running lights turn on.

3 ⫶D The headlights and all lights listed above turn on.

4 DRL OFF The daytime running light turn off.

▶ **Type B**

1 AUTO The headlight, side marker, parking, tail, license plate, daytime running lights and instrument panel lights turn on/off automatically in accordance with ambient light levels.

2 ⫶D ⫶C The instrument panel, side marker, parking, tail, license plate and daytime running lights turn on.

3 ⫶D The headlights and all lights listed above turn on.

4 DRL OFF The daytime running light turn off.
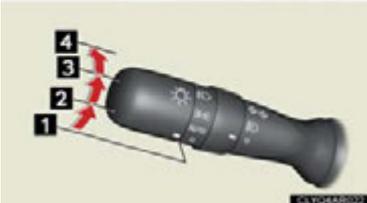

▶ **Type C**

1 ⬤ The daytime running lights turn on.

2 AUTO The headlight, side marker, parking, tail, license plate, daytime running lights and instrument panel lights turn on/off automatically in accordance with ambient light levels.

3 ▭ The instrument panel, side marker, parking, tail, license plate and daytime running lights turn on.

4 ▭ The headlights and all lights listed above turn on.

To engage the high beams, push the lever forward. To flash the high beams temporarily, pull the lever toward you.

Automatic High Beam (If Equipped)

The Automatic High Beam uses an in-vehicle camera sensor to assess the brightness of streetlights, the lights of oncoming and preceding vehicles, etc., and automatically turns high beam on or off as necessary.

▶ Type A

1 Headlight switch in "AUTO" position.
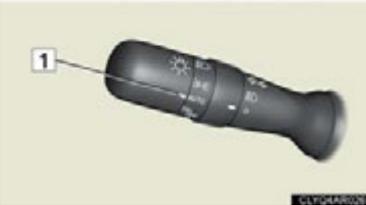

▶ Type B

1 Headlight switch in "AUTO" position.
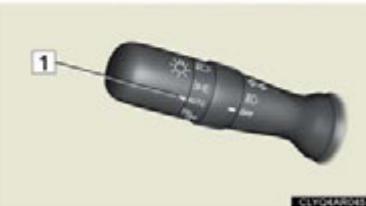

2 Push the lever away from you.

26

When all of the following conditions are fulfilled, high beam will be automatically turned on (after approximately 1 second):

- Vehicle speed is above approximately 20 mph (32 km/h).
- The area ahead of the vehicle is dark.
- There are no oncoming or preceding vehicles with headlights or tail lights turned on.

Windshield Wipers and Washer

■ Intermittent wiper with interval adjuster (if equipped)

▶ Type A

1 | ○ | Off
2 | | Intermittent operation
3 | ▼ | Low speed
4 | ▼ | High speed
5 | △ | Temporary operation

▶ Type B

1 | OFF | Off
2 | INT | Intermittent operation
3 | LO | Low speed
4 | HI | High speed
5 | MIST | Temporary operation
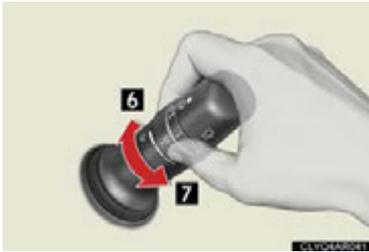

Intermittent operation: Wiper interval can be adjusted by turning the band.

6 Increases the intermittent windshield wiper frequency

7 Decreases the intermittent windshield wiper frequency

To spray washer fluid, pull the lever. The wipers will operate automatically.

■ Rain-sensing windshield wipers (if equipped)

▶ Type A

1 ⬭ Off
2 AUTO Automatic operation
3 ▼ Low speed
4 ⬇ High speed
5 △ Temporary operation
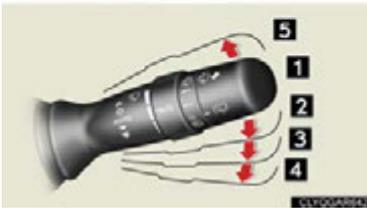

▶ Type B

1 OFF Off
2 AUTO Automatic operation
3 LO Low speed
4 HI High speed
5 MIST Temporary operation
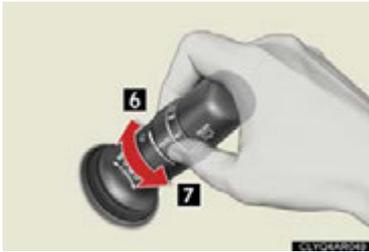

Automatic operation: sensitivity can be adjusted by turning the band.
6 Sensor sensitivity (high)
7 Sensor sensitivity (low)

To spray washer fluid, pull the lever. The wipers will operate automatically.

Rear Window Wiper and Washer

▶ Type A

1 ⬭ Off
2 - - - Intermittent window wiper operation
3 ▬ Normal window wiper operation
4 🖻 Washer/wiper dual operation
5 🖻 Washer/wiper dual operation

▶ Type B

1 OFF Off
2 INT Intermittent window wiper operation
3 ON Normal window wiper operation
4 🖻 Washer/wiper dual operation
5 🖻 Washer/wiper dual operation

Remote Touch (If Equipped)

The Remote Touch can be used to operate the navigation screens and configure settings.

■Basic operation

1 Remote Touch knob
   Use this knob to move the cursor and select items on the screen.
   Feedback force, pointer shape, and on or off of selection sounds can be changed. Refer to the "Navigation System Owner's Manual".

2 "ENTER" button
   Press this button to confirm a selection.

3 "MAP/VOICE" button
   Press this button to display the vehicle's current position.

4 "∧·∨" button
   Press these buttons to change map scale and scroll through lists.

5 "MENU" button
   Press this button to display the "Start" (menu) screen.

6 "DISP" button
   Press this button to adjust picture quality.

■Start

Press the "MENU" button on the Remote Touch to display the "Start" screen.

1 Destination (→P.35)
2 Info. Phone (→P.9)
3 Setup (→P.35, 42)
4 Climate (→P.54)
5 Audio (→P.50)

■Display

Press the "DISP" button on the Remote Touch to show the "Display" screen.

1 Turns the rear seat entertainment system on and off
2 Displays the screen in "Day Mode" with the headlight switch on
3 Turns the screen off
4 Adjust contrast
5 Adjust brightness
6 Adjust color tone
7 Adjust color
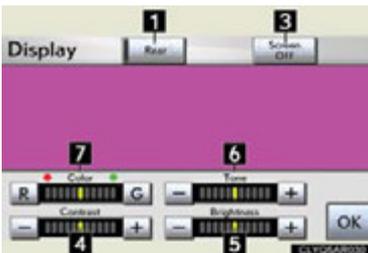

■ Screen scroll operation
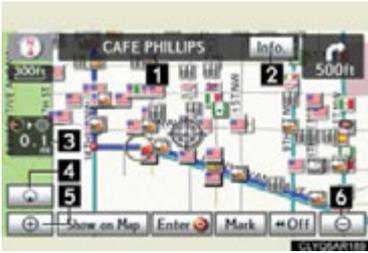

To scroll over the map, place the pointer in a position near the desired destination and then press and hold the "ENTER" button of the Remote Touch.

1 Indicates the street name, city name, etc. for the selected point

2 Displays various information for the selected point (if available)

3 Indicates the distance from the current position to the pointer

4 Switches the screens

5 Zooms in on the map

6 Zooms out on the map

■ Setting a route

While route guidance is operating, you can change the route using the following method.

Select **Route** .

The following settings can be accessed
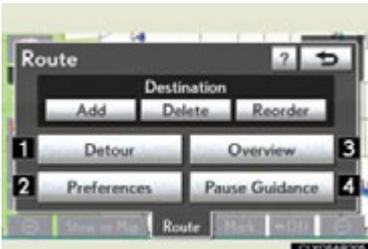

1 Detour setting

2 Route preferences

3 Route overview

4 Pause and resume route guidance

Some functions are unavailable while the vehicle is in motion. Refer to the "Navigation System Owner's Manual".

Navigation System (If Equipped)

■Register home

STEP 1

1. Press the "MENU" button on the Remote Touch.
   Please refer to P.32 for the Remote Touch operation.
   The "Start" screen will be displayed.

STEP 2

2. Select 🖳.

STEP 3

13 Air outlet display

■ Using the automatic mode

Press 8 to turn on the airflow and 9 to adjust the temperature.

■ Adjusting the temperature

■ To simultaneously adjust the driver's side and passenger's side temperature settings
Select 1 to turn the "DUAL" indicator off ([DUAL]) and then press 9 .

■ To individually adjust the driver's side and passenger's side temperature settings
Select 1 or press 5 to turn the "DUAL" indicator on ([DUAL]) and then press 9 or 5 .

■ To turn off the airflow

Press and hold "∨" on 10 until the airflow turns off.

Hands-free System For Cellular Phone (without navigation system)

■ Bluetooth® phone pairing

Compatible Bluetooth®-equipped phones can be connected to the vehicle, enabling hands-free operation. Please refer to the cellular phone manufacturer's user guide for pairing procedures, or go to "www.lexus.com/bluetooth" for more phone information.

STEP 1

To use a Bluetooth® phone, it is necessary to first register it in the system.

1 Press [ ] or [ ] .

2 Press [ ] and say "Pair phone".

3 Press [ ] and say a name*.

*: This name will be used to identify your phone in the case that more than one phone has been registered to the system.

4 Press [ ] and say "Confirm" to display the passkey.

5 Enter the passkey shown on the display into the phone.

Refer to the cellular phone user's manual for cellular phone operation.

6 Once the voice guidance for registration completion is finished, press [ ] .

[ ] : Pressing this switch turns the speech command system on. Say a command after the beep.

■Calling by number

STEP 1

1 Press [ ] and say "Dial by number".

2 Press [ ] and say the phone number.

3 Dialing

   a. Press [ ].

   b. Press [ ] and say "Dial".

■Calling by name

You can call by saying a voice tag registered in the phonebook. For setting the voice recognition, refer to the "Owner's Manual".

STEP 1

1 Press [ ] and say "Dial by name".

2 Press [ ] and say a contact name.

3 Dialing

   a. Press [ ].

   b. Press [ ] and say "Dial".

[ ] : Pressing this switch turns the speech command system on. Say a command after the beep.

Portable Audio Device Ports

These ports can be used to connect a portable audio device and listen to it through the vehicle's speakers.
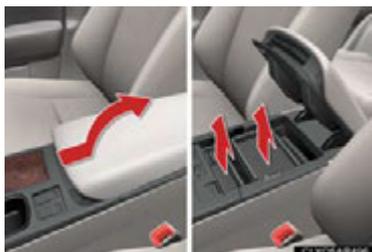

[1] Slide the armrest while pulling up the lever, and lift the armrest.
Remove the upper trays. (if equipped)

[2] Remove the lower tray and open the cover.

1 USB port (if equipped)
2 AUX port

Safety Connect (If Equipped)

Safety Connect is a subscription-based telematics service that uses Global Positioning System (GPS) data and embedded cellular technology to provide safety and security features to subscribers. Safety Connect is supported by Lexus' designated response center, which operates 24 hours per day, 7 days per week.

Safety Connect service is available by subscription on select, telematics hardware-equipped vehicles.

■ System components
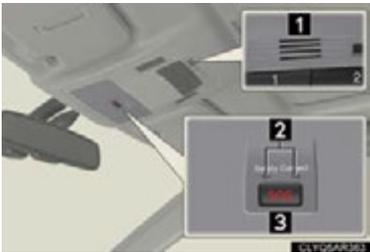

1 Microphone
2 LED light indicators
3 "SOS" button

■ Services

Subscribers have the following Safety Connect services available:

● Automatic Collision Notification*

In case of either airbag deployment or severe rear-end collision, the system is designed to automatically call the response center. The responding agent receives the vehicle's location and attempts to speak with the vehicle occupants to assess the level of emergency. If the occupants are unable to communicate, the agent automatically treats the call as an emergency, contacts the nearest emergency services provider to describe the situation, and requests that assistance be sent to the location.

*: U.S. Patent No. 7,508,298 B2

● **Stolen Vehicle Location**

If your vehicle is stolen, Safety Connect can work with local authorities to assist them in locating and recovering the vehicle. After filing a police report, call the Safety Connect response center at 1-800-25-LEXUS (1-800-255-3987) and follow the prompts for Safety Connect to initiate this service.

In addition to assisting law enforcement with recovery of a stolen vehicle, Safety-Connect-equipped vehicle location data may, under certain circumstances, be shared with third parties to locate your vehicle. Further information is available at Lexus.com.

● **Emergency Assistance Button (SOS)**

In the event of an emergency on the road, push the "SOS" button to reach the Safety Connect response center. The answering agent will determine your vehicle's location, assess the emergency, and dispatch the necessary assistance required.

If you accidentally push the "SOS" button, tell the response-center agent that you are not experiencing an emergency.

● **Enhanced Roadside Assistance**

Subscribers can push the "SOS" button to reach a Safety Connect response-center agent, who can help with a wide range of needs, such as: towing, flat tire, fuel delivery, etc. For a description of the Roadside Assistance services and their limitations, please see the Safety Connect Terms and Conditions, which are available at Lexus.com.

■ Subscription

After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services.

A variety of subscription terms is available for purchase. Contact your Lexus dealer, call 1-800-25-LEXUS (1-800-255-3987) or push the "SOS" button in your vehicle for further subscription details.

Lexus Enform with Safety Connect (If Equipped)

Lexus Enform and Safety Connect are subscription-based telematics services that use Global Positioning System (GPS) data, embedded cellular technology an XM® satellite data services to provide safety and security as well as convenience features to subscribers.

Lexus Enform and Safety Connect services are supported by Lexus' designated response center, which operates 24 hours per day, 7 days per week.

Lexus Enform service is available by subscription on select, telematics hardware-equipped vehicles.

For details, refer to the "Owner's Manual" and "Navigation System Owner's Manual".

■Services

▶ **With an active Lexus Enform subscription, the following features are available:**

● **Safety Connect features (→P.75)**

- Automatic collision notification[*1]
- Stolen vehicle location
- Emergency assistance button (SOS)
- Enhanced Roadside assistance

● **Destination Assist**

Destination Assist provides you with live assistance for finding destinations via the Lexus Enform response center. You can request either a specific business, address, or ask for help locating your desired destination by category, such as restaurants, gas stations, shopping centers or other points of interest (POI).

After you tell the agent your choice of destination, its coordinates are sent wirelessly to your vehicle's navigation system.

● **eDestination**

With the eDestination feature, you can go online, via the Lexus.com owner's Web site, to select and organize destinations of your choice and then wirelessly send them to your vehicle's navigation system.

You can store up to 200 locations online to access and update at any time.

Your locations can be organized into up to 20 personalized folders.

You must first go online at www.lexus.com and go to the "Owners" section where you will need to register and log in. After this, you can create your personalized folders containing the locations you wish to send to your vehicle. (See Lexus Enform Guide for more information.)

● **XM® Sports and Stocks[*2]**

XM® Sports and Stocks is a service included with XM® satellite radio subscriptions for Lexus Enform vehicles. With this service, you can receive updates via the navigation system on your personally selected sports teams and stocks.

● **XM NavWeather™**[*3]

The subscription-based XM NavWeather™ service allows the navigation system to display weather information on the map.

● **XM® NavTraffic**[*3]

The subscription-based XM® NavTraffic service allows the navigation system to display traffic information on the map.

▶ **The following navigation-based Lexus Enform features are available without a subscription:**

● **Lexus Insider**

Lexus Insider is an optional service that can send audio messages, or articles, to participating owner's vehicles via the navigation system. Potential Lexus Insider subjects might include, for example, Lexus vehicle technology tips, updates on regional Lexus events, or audio excerpts from Lexus Magazine articles. Up to 20 articles can be stored at a time.

● **Voice Command**

The voice command system enables you to operate the navigation system, audio system and hands-free system by giving a command.

[*1]: U.S. Patent No. 7,508,298 B2

[*2]: Available at no extra charge with an active XM® satellite radio subscription.

[*3]: Available via separate XM® subscription(s).

■ Subscription

After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services. A variety of subscription terms is available for purchase. Contact your Lexus dealer, call 1-800-25-LEXUS (1-800-255-3987), or push the "Destination Assist" button in your vehicle for further subscription details. XM NavTraffic® and XM NavWeather™ require separate XM® subscription(s). XM® Sports and Stocks is available with an XM® Satellite Radio subscription. After a 90-day free trial, you must set up the appropriate XM® subscription(s) to continue receiving these services.

Door Locks

■ Locking the vehicle from inside

▶ **Inside lock button**
1 Locks
2 Unlocks

▶ **Door lock switches**
Operates all door locks/unlocks.
1 Locks
2 Unlocks

■ Locking the vehicle from outside

Using the entry function or wireless remote control (→P.12, 13)

■ Rear door child-protector lock

Pushing down the switch prevents the rear doors from being opened from the inside.

Always set the child protector locks when children are seated in the rear seat.

Power Windows

1 **Power window switches**

To open: press the switch.
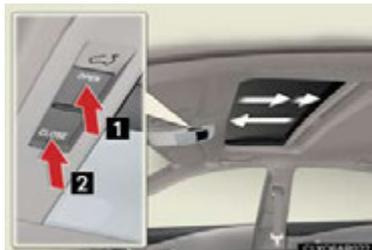

To close: pull the switch up.

Fully pulling up and releasing the switches causes the windows to close fully. Fully pressing down and releasing the switches causes the windows to open fully.

2 **Window lock switch**

The window lock switch disables the operation of passenger and rear window switches.

Moon Roof (If Equipped)

■ Opening and closing

1 Opens

The moon roof stops slightly before the fully opened position.

To fully open, press the switch again.

2 Closes

To stop partway, press the switch lightly.

■ Tilt up and down
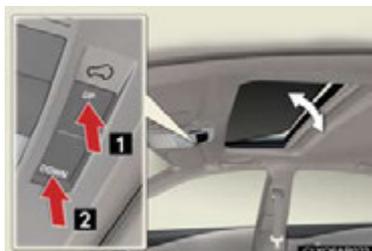

1 Tilts up

2 Tilts down

To stop partway, press the switch lightly.

Fuel Tank Cap

1 Press the fuel filler door opener.

2 Slowly remove the cap by turning it counter-clockwise.
After the cap is removed, it can be hung on the inside of the fuel filler door.

Back Door
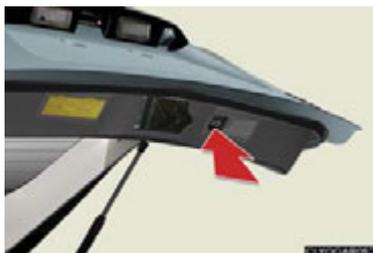

■ Back door opener button

To open the back door, push up the opener button and raise the door.

■ Power back door switches (with power back door)

▶ **Instrument panel**
To open or close the back door, press the switch.

▶ **Back door**
To close the back door, press the switch.

▶ **Wireless remote control** (→P.12)

■ Back door closer (with power back door)

If the back door is left slightly open, it will close automatically.

■ Turning the power back door system on and off (with power back door)
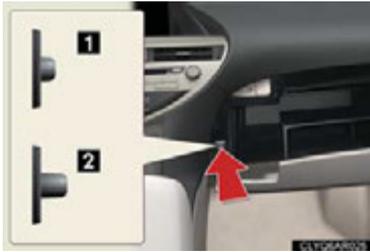

To disable the system, turn off the main switch in the glove box.

1 On
2 Off

When the power back door system is disabled, the back door cannot be opened using the wireless remote control or power back door switch.

What to do if ...

[1]: If equipped
[2]: It also turn on due to natural causes such as natural air leaks or tire inflation pressure changes caused by temperature (the status of the full-sized spare tire, if equipped, is also checked). Adjust the tire inflation pressure to the specified level. The light will turn off after a few minutes. In case the light does not turn off even if the tire inflation pressure is adjusted, have the system checked by your Lexus dealer.

If the electronic key does not operate properly

■ **Unlocking and locking the doors**

To unlock or lock the vehicle, use the mechanical key (driver's door only). The mechanical key is stored inside the electronic key.

1 Locks
2 Unlocks

■ **Starting the hybrid system**

Card key*

1 Depress the brake pedal.
2 Touch the Lexus emblem side of the electronic key to the "POWER" switch.
3 Press the "POWER" switch within 10 seconds of the buzzer, keeping the brake pedal depressed.

*: If equipped

If the electronic key battery becomes depleted, replace it with a new battery. For instructions on replacing the battery, refer to the Owner's Manual. If you need further assistance, contact your Lexus dealer.

If the hybrid system doesn't start

Make sure that the correct operating procedures have been followed.

Brake pedal

Make sure that the brake pedal is firmly depressed when attempting to start the hybrid system.

Steering wheel lock

Make sure that the steering wheel lock is released.

To release it, press the "POWER" switch while gently turning the wheel left or right.

If the hybrid system still does not start, see the Owner's Manual for more information or contact your Lexus dealer.

Memo

LEXUS
