

HOW TO PAIR BLUETOOTH®²

To use the hands-free³ features of the Yaris iA Display Audio system, it is necessary to first pair a compatible Bluetooth®² mobile device to the vehicle. This operation cannot be performed while driving.

STEP 1 Activate the Bluetooth®² connection setting of your mobile device. [See Figures 1 & 2]

Figure 1: iOS

Figure 2: Android™

STEP 2 Using the remote commander knob or touchscreen, select "Settings" from the home screen of the vehicle display (far right circle).

STEP 3 Within "Settings", you will see tabs on the top. Hit the >> arrow until the "Devices" tab is available. Select "Devices". [See Figure 3]

Figure 3

STEP 4 Within the "Devices" tab, select "Bluetooth®". [See Figure 3]

STEP 5 Within the "Bluetooth®" menu, select "Add New Device". [See Figure 4]

Figure 4

STEP 6 On your mobile device, find and select "My Toyota" or your Toyota vehicle within the Bluetooth®² device list.

STEP 7 Verify the PIN. Select "Pair" on your device and select "Yes" on the head unit. [See Figure 5]

Figure 5

STEP 8 To enable text message notification on your mobile device, follow the appropriate directions below:

For iPhone®⁴: Select the  icon next to the paired vehicle on your phone, and switch the "Show Notifications" toggle to on. [See Figure 6]

For Android™: Your device might pop up two messages asking to allow the vehicle head unit to access your contacts and messages. You may choose to select "Yes" to both. [See Figure 7]
